***EXPOSE CORRUPTION***

## **“THE PRISONERS VOICE “**

[www.theprisonersvoice.com](http://www.theprisonersvoice.com)

*The purpose in our web page “THE PRISONERS VOICE “is just like it says, to give a voice to those in prison and those released, on or off parole, friends and relatives are welcome to speak as well.*

*When our elected, our law enforcers prosecute outside the U.S. Constitution setting aside the rights of accused, when they violate the right to due process, we no longer have justice, what's left, well, it's anything but justice, IT'S TYRANNY, Defined as cruel unreasonable, or arbitrary use of power or control. I say that it's MAN'S INHUMANITY TO MAN.*

*I spent 5 years in chino prison due to a wrongful conviction (my Habeas is now in the 9<sup>th</sup> circuit court of appeals). My story is found at [www.isaycakissmyass.com](http://www.isaycakissmyass.com), also found at; [www.istheconstitutiondead.com](http://www.istheconstitutiondead.com) ', and [www.usconstitutionrip.com](http://www.usconstitutionrip.com) . . The corruption runs deep, on all levels, the violations of inmate's constitutional rights, the degrading manor in which inmates are subject to on a daily bases should not be left un-said.*

*C.D.C.R. “California Department of Correction and Rehabilitation” is one of the biggest lies told to the voters of this state, if keeping an inmate down with a boot on their necks, having them work for penny's, depriving them of basic human dignity, if this is what they call “CORRECTION”, well then, they are doing a good job at it. As far as rehabilitation goes that's a bigger joke than their correction program. There are programs such as a GED class, some college classes but there limited, I never saw any meaningful vocational training, if anything what one can learn in prisons is how to be a better criminal. It does not matter how many years you are locked up, when you are released, you will not be ready to fit into society. How ever many years you are locked up, working to do most of the culinary tasks, janitorial duties, clerks, most of what it takes to keep the inside working, you work for nothing, while some jobs pay up to 80 cents per hour CDCR takes most of it back for restitution so that upon release you will be destitute, released into society with whatever job skills you had prior to incarceration, given \$200.00 so called gate money, for the most*

*part no skills, without help from friends or family you will be homeless. (read my story on state promoted homelessness).*

*QUESTION, is this what they call rehabilitation?*

*My story is on line including my Habeas Corpus, it's 13 chapters long and tells of cruel and unusual punishment, substandard living conditions, substandard medical treatment, and treatment that in no way could be confused with correction and rehabilitation.*

*We want to be your VOICE your TOWN CRIER, the people, the voters need to know what the are getting for their Tax Dollars.*

*I say the State of California has totally failed in Correction and Rehabilitation, failed in policing their own officers to many Asst. District Attorney's guilty of prosecutorial misconduct (as in my case), Judges handing down sentences beyond what fits the crime. California has made an industry of its justice system, their product is union jobs, correctional officers, DA's, judges unfit to set on the bench, YES, we need to keep criminals off the streets, lets keep it with-in their rights to due process, lets hold the ones we place in charge accountable to "WE THE PEOPLE".*

*THAT'S WHY I SAY; "CALIFORNIA KISS MY ASS" JOIN ME!!*
