

Chapter Seven
DID SOME ONE STEAL AMERICA
YES RIGHT FROM UNDER OUR NOSES
THE BIGGEST THREAT TO OUR CONSTITUTION
IS FOUND IN THE HALLS OF CONGRESS

You might be thinking how could someone steal America...America is a place after all. But my America is more than a place, it's an idea of one nation under God with liberty, and justice for all, formed by our fore fathers, who gave everything they had to form the greatest nation the world has ever known, defended with the blood of the people for more than 300 years.

However, the nation of our founders is not the nation we are giving to our grandchildren. I grew up learning basic values to live life believing in God, family and country. I learned from my parents and grandparents....

I learned to respect my elders, sometimes the lesson included a swat on my back side, but always served with an equal amount of love. I was sent out into the world with the basic values and respect for others that prepared me to be a good citizen.

I was sent to school learning many things useful in life, but they have little value without the knowledge of how to respect your fellow man, I'm not sure that they have that course in school's anymore, I learned to respect God starting with my parents, and in Sunday school. I learned the the love of country in school, saying the Pledge of Allegiance to the American flag, the flag was flown proudly everywhere, in every classroom, a symbol of freedom, God was spoken of in school, and his last name was not damm. God was present everywhere in government, the 10 commandments were posted in such places as the halls of justice.

Today God's presence is hard to find, replaced with the rise in crime, the decay of our school system, drugs and gangs everywhere, greed and corruption in government, and the erosion of our civil liberties.

I was proud to serve my country, served in the Army stationed in Germany, when President Kennedy stood up to Russia telling them they could not put Russian missiles in Cuba. I stood proud not ashamed to wear the **uniform and salute our flag.**

I took it to heart when Kennedy said; **“ask not what your country can do for you but ask what you can do for your country”**. I’m a 72-year-old and never taken a dime from my government, no welfare, no food stamps, no unemployment, paying a life time of taxes, never taking, always giving now the Social Security I paid into is broke, I’m told it is gone, spent by a greedy government given away impart to those who do not contribute. They spent a life time, taking and wanting more. Don’t get me wrong, I don’t think anyone should go hungry or without a roof over their head, as a Christian and as a Christian nation I believe that we all have a responsibly to provide for the most needy in our country, in a country as rich as America everyone should be fed and housed, however I believe in a hand up, not a hand out, provide jobs for those who can work, and help the widows and orphans and disabled, I see the government collecting billions for welfare programs and spending for the most part on agencies that run welfare programs taking there share off the top and the needy getting what ever is left, if any

I remember when;

Kids survived being born to mothers who smoked and or drank while they carried them. I remember when you could take aspirin, ate blue cheese dressing, tuna from a tin, and didn’t get tested for diabetes. I remember when, baby cots were covered with bright colored lead-based paint, there were no child proof lids on medicine bottles, doors or cabinets not locked, and when I rode my bike without a helmet, not to mention the risk you took hitchhiking , riding in cars with out seat belts, how fun it was to ride in the back of dads pick-up, remember when you drank water out of a hose, or shared a soda with 4 of your friends all drinking out of the same bottle, ate cake, and bread made from white flour and sugar, we were not obese because WE WERE ALWAYS OUTSIDE PLAYING, I could go on and on and I am not saying these

changes were all bad, what I am saying is shouldn't we have been given a choice on some of these things, how far do we go with the government regulating our lives. In the last legislative session (July 2017) Our great governor Jerry Brown signed in to law over 1000 new laws, that was not for his 4 year term, that was for the last 6 months, do we need 1000's of new laws every 6 months, more and more we are over taxed, and over regulated, our government is spending billions of our dollars to protect us from ourselves. Are we incapable of taken care of ourselves, deciding for ourselves if we want to do any one of the things mentioned above, or has our government become our nanny. Remember when First Lady Obama had McDonalds replace French Fries with fruit, in the kid's happy meals, I laughed out loud when I heard that on the news. I should have cried!! personally I do not need the government telling me what to feed my kids. What's next government nanny's that inspect our cupboards. Our founders built a great new nation, based on freedom, and our government of today is taken it apart one brick at a time.

DID SOMEONE STEAL AMERICA; I SAY YES

Stolen by greed in the government, and citizens that think the producers in this country owe them a living, a government that uses our tax dollars to buy votes with promises of more to those who take, that never give back. We the People are in fact the government, the power of the elective to pass enforce laws within the boundaries of the U.S. Constitution, the rules they must obey, to act with indifference to the Constitutions is in fact an act of tyranny against the people, is defined as cruel or unjust use of power. Treason defined as betrayal of one's country i.e. violations of the Constitution.

To many times the will of the people thought the vote is over ruled by the decision of a judge, placing the will of the few over the will of the voters.

The America that our Founders gave us is not the America that we are passing to our grandchildren. The government today seems intent on forcing our way of life on the rest of the world, while failing us here at home our soldiers are dying not to defend America, but to impose a way of life on the world at a cost beyond what we can bear.

Our government is like a runaway train speeding out of control, with the crew is having a party in the dining car. For too long we have let the elected placed in office by **we the people** steal our heritage, violating their oaths of office to defend our Constitution.

The freedom train ran by our government, fueled by greed and corruption is headed for collision it's time to fight back and take control, stop the train wreck.

WHO DONE IT?

America is a divided nation, politicians promise that they will unify the country, that rhetoric comes up every time there is an election and soon forgotten after whatever side gets in office.

They will never unify the nation, the division comes from two ideology's, we are told the division comes from conservatism (the right), and from liberalism (the left), those two titles are nothing but a mask to keep the real truth from We The People, the two opposing ideology's are capitalism (the right) and socialism/communism (the left), two idea's that are as compatible as oil and water, the two will never blend together, one will overtake the other.

Socialism is a cancer that over takes country's with promise of an equal share of the country's wealth and is an easy sell to the people, free everything from medical, food, housing, education and on and on, who would not buy into that type of government, the problem is the government gets to hold all the wealth and decide who gets what, how much they get, the problem it's not free, the producers of a country pay

for all that free stuff, what happens when the producers run out of money.

America for the past 40 plus years has been becoming more and more socialistic, the left is always crying that the rich do not pay it's fair share of taxes, but that's just another lie for the socialist left, truth is 50% of the lower income American's do not pay any income tax, somewhere around 95% of income tax's are paid by 5 % of the tax payers, yet the left continues to cry the rich don't pay there fair share.. Our Social Security has been stolen to pay for, in part social programs. Many of these programs are necessary for the very needy of our nation, and we need to provide for those people, no one should go hungry or without medicine or live on the street while living in the richest nation on earth. So, what is the answer, WELL IT'S NOT SOCIALISM, our government has more than proven that it can not manage money, we are for the time being a Capitalist nation, and therefore private enterprise should manage and run socialist program's i.e. Churches, Non-Profit Organization's, maybe employers' that hire those in need be given tax credits that they pass on to needy low income workers, take the money out of the hands of social service government ran program's.

Our Federal government collects about \$3.7 trillion in income tax each year, and the states collect about \$ 2.7 trillion. Out of the Federal government funds, I googled how the Fed's spent our money and found out that two thirds of our tax money is paid out to social programs, with 49.2 % of all American households receiving government assistance, we are at the point where all most half our country is supported or partially supported by the tax payers of our country, that is socialism and that should make all of us concerned.

So how do we turn the tide, or have we gone so far to the "left" that there is no turning back, have you ever heard the saying " You Can't Teach a Fed Dog To Hunt" or should we even try, with the homeless population as high as it is, the sick without insurance, families without enough food for their kids we can't just stop the welfare programs, is there an answer?? A good start would be more jobs, and instead of paying people to stay home, subsidize their income add to their pay, today's system works like if a person is getting aid and goes to work say part

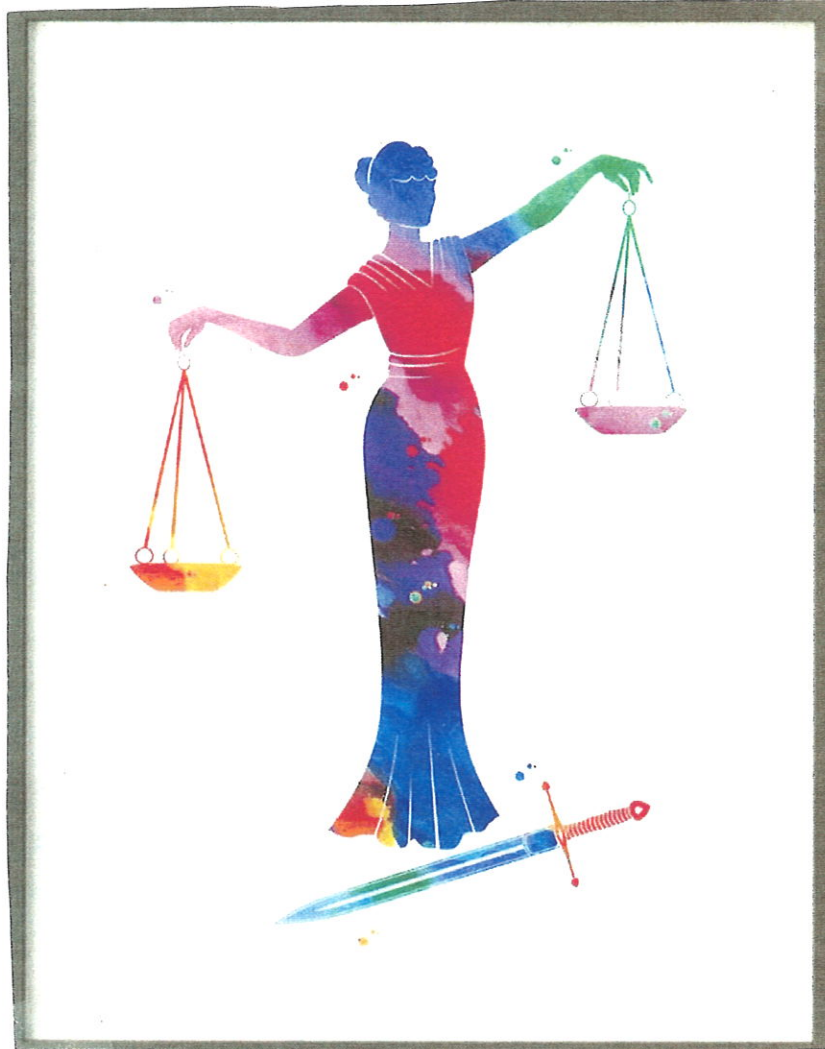

time his aid is cut, so he will not look for work, if your welfare equals minimum wage, why would he go to work and make less money?? Welfare does not require taxes, transportation, clothes for work, food while you work, babysitting costs etc. etc. you can stay home and live on the government check without worrying about getting to work, paying someone to watch the kids, so you can see that fixing the problem is not going to be simple. We need to pay people to work, not stay home and collect a check each month, one half of this country are socialistic minded, in line for there government to provide for them, and the other half are workers that believe in producing, providing, and creating wealth, which half will win out??

Remember President Roosevelt "FDR", the 32nd President no doubt a socialist, however he became President at the depth of the great depression, Roosevelt came up with a plan that could work today, using government resources put together infrastructure jobs i.e. the Bay Bridge, Hoover Dam and many other infrastructure jobs creating top paying jobs and helped pull this nations great depression out of financial ruin. We are in total infrastructure disarray and it's going to take a lot of money and resources to fix it, why not take some of the social services money and hire the same people that we are now paying to stay home and pay them to rebuild the nations roads, bridges, water systems etc. wouldn't that be like killing two birds with one stone or spending the money once and getting double benefit. The company's that get the contracts to do the work would have to be required to hire such people those that are on the dole as it were, these would not be minimum wage jobs, Obama promised shovel ready jobs, and did not produce one job, now would be the time to run with that idea.

THE GOVERNMENT IS STEELING OUR FREEDOM, OVER TAXING, TO MANY REGULATIONS, OPERATING OUTSIDE OUR CONSTITUTION, AMERICA BELONGS TO WE THE PEOPLE, NOT THE ELECTED, HAVE WE FORGOT THAT THEY WORK FOR US, I THINK THEY HAVE!!!!

They say that justice is blind

**I say that justice is not blind
its only colored blind
and only see's the color
\$\$ GREEN \$\$**

**Up to this time I have represented myself as pro-se (without an attorney).
To continue to seek justice I will need help with legal fee's to take my case all
the way to the US Supreme court if needed,**

**With Your Help
I will Stand up for the Constitution
Prove My Innocents
Expose California's Corrupt Justice System
Giving Hope to other Wrongfully Convicted Californian's**
